Visit "[Play You](#)" on MotoLyrics.com

I fall into your eyes of blue,
These big gigantic pools of you,
It's not like me but what can i do?

I forget...

And all my friends said just look out,
He'll get in your head and he won't get out,
Uh oh (uh oh) what'll i do now?

You forget...

I can play (play you) like a record baby,
I can read (read you) like an open book,
Come on, come on -
(Hey!) Hey Mr Hot Rod (Hey!) it's not a problem...

My life long dreams ripped at the seams,
You came and fixed them up for me,
And now you're all that i can see.

I forget...

I wandered round this town for days,
I thought i'd never find my way,
And now i'm leading you astray.

You forget...

Chorus.

If you fall, if you fail, if you come apart,
I'll fix your heart.
If you fall, if you fail, if you come apart,
I'll fix your heart.

Chorus
