I'm all alone
Holding on to memories while you're moving on
Let me take you back to when we first said goodbye
Cuz I need you
I try because all that I can do is hope that loves enough
To pull you close enough to hold you, I'll close my eyes
And I see you
Even when the sky falls and I've lost it all I know I will
find you there
Even when my heart stops I'll keep looking cuz I know I
will find you
there
You know I will find you I'll find you I will find you there
You know I will find you I'll find you I will find you there
So tell me why
Why you want a world between us
Let me try I know you know this time I mean it
Say you still care and you need me
So where'd you go
Something in your voice that says you're not alone
Do you remember when I said I'd always be there
Believe me
Even when the sky falls and I've lost it all I know I will
find you there
Even when my heart stops I'll keep looking cuz I know I
will find you
there
You know I will find you I'll find you I will find you there
You know I will find you I'll find you I will find you there
We're timeless, we're fearless, we're always gone,
we're brilliant, we're
broken
We're burned and on
Even when the sky falls and I've lost it all I know I will
find you there
Even when my heart stops I'll keep looking cuz I know I
will find you
there
You know I will find you I'll find you I will find you there
You know I will find you I'll find you I will find you there
Even when the sky falls and I've lost it all I know I will

find you there
Even when my heart stops I'll keep looking cuz I know I
will find you
there
You know I will find you I'll find you I will find you there
You know I will find you I'll find you I will find you there
