every single day i wake  
i just cant wait to ee your face  
are you looking back at me

and every moment that goes by  
i am waiting for the sun  
think of you and im alright  
did you think of me tonight

you and only you  
you make my heart feel like your pulling every string  
you and only you  
you make me drop down to my knees and give this ring  
my everything

baby once upon a time  
there was a million stars of light  
now you're the only light i see

and i dont care which way we go  
teach me everything you know  
everything a love should be  
so baby just believe

you and only you  
you make my heart feel like your pulling every string  
you and only you  
you make me drop down to my knees and give this ring  
my everything

dont be alone  
cause hen you're far away  
a houe a memory  
say you'll come back home  
for me, for good

you and only you  
you make my heart feel like your pulling every string  
you and only you  
you make me drop down to my knees and give this ring  
my everything
