You are all i had to stay for
(say your worst, say your worst again)
We scream the words your heart longs to hear
(break it down, Break it down)

This Empty Hollow Heartache
Your eyes they fall away from me

This Distance, that comes between us
I hear you, I hear your voice
I feel you, I feel your touch
and i see you, i see your face

You are all i had to stay for.(say your worst, say your
worst again)
we scream the words, your heart lonngs to hear (break
it down, Break it down)

we're not superheroes anymore
we can be, what you, want us to be
