The sequence found
But pushed away
I'll love nothing more
Drink plant eat drink
Take my time
Drink plant eat drink
Take my time

A stage set for
A plague of primates
In the sky, in the wind, in the soil
I'm waiting for
On my cloud bank
To rain and rain and rain on the world

Atoms smash
Seeds hit ground
The craters birth new plants
They swallow my friends

A single seed crashes into me
I'm lifted by my trashing strings
What am I?
What have I combined?
What am I?
What have I combined?

I'm a spiral
I think quickly
I expand
My strings grow wings and hands
I expand
My strings grow wings and hands
I'm a spiral
I'm spiraling

Atoms smash
Seeds hit ground
The craters birth new plants
The scream and spiral towards
Deep space dark mass
They swallow my friends

They swallow my friends

Stop

This must be hell

A universe grows in my self

Oh, I will let it grow

It will stretch my strings

And in that pitch-black brightness

I become everything

Atoms smash

Seeds hit ground

The craters birth new plants

The scream and spiral towards

Deep space dark mass

They swallow my friends

They swallow my friends

Atoms smash

They swallow my friends

Atoms smash

They swallow all of them
