She woke up, put on her dress
She stared up, said "I'm a mess"
Well, girl you know I still believe in you
She said, "I can't take these rainy days, they just never
go away"
Well, I think I might know what you need
So get your things and come with me
And just hold me hand

Da da da da...

'Cause I can hold you while you dream
Planes, oceans, and symphonies
And I,
I swear that I won't make a sound
And I,
I won't let your feet touch the ground
If you hold my hand

Da da da da...

And we got everything we need
Girl, just take a ride with me
Yeah, you know the stars will keep us close
And they will follow you where you go

Da da da da...
