# "All My Friends Are Insects"

Visit "[All My Friends Are Insects](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I have a friend and it's an earthworm  
It burrows underground deep within the soil  
Sometimes when it rains it comes out  
And we talk about our day

I have a friend and she's a butterfly  
She flies from flower to flower drinking sweet nectar  
With hundreds of friends  
They sleep up in the trees at night

I have a friend and he's a dragonfly  
He sweeps around all day and hovers in the air  
He's colorful and wonderful  
His wings are strong and powerful  
He's the dragonfly

These are my friends  
Even though they are bugs  
They have a big role in our world  
Even though they're bugs

I have a friend and it's an earthworm  
I have a friend and she's a butterfly  
I have a friend and he's a dragonfly  
They are my friends and yeah they're all insects
