chess is such a difficult game  
there are so many pieces  
so many squares where you can go  
so few promises  
never you mind all the others  
anticipating your next move  
i know it's hard cause you got a lot to do  
street signs and traffic lights ever confusing me it's  
you  
stop left, go right, no U-turn, where's the goddamn exit  
never you mind all the others  
influencing your next move  
i know it's hard cause you got a lot to prove  
lalalalalala~  
sex and drugs and rock n' roll  
pieces by rocking for you  
this puzzle can't be done wrong  
so cover 'em while you can  
never you mind all the others  
anticipating your next move  
never you mind all the others  
never you mind what they do  
don't let them get you down cause it's there too  
you'll be trapped forever under their shoe  
here is the paper so go  
i know it's hard cause you got a lot to do  
fa la la la la la la la la la la la la la la la~
