Never before have I fallen for someone who'd go on
and do me like this
You were the one who would always follow through with
the ease of building care
for a kiss

Say you love me
Say you love me

Get out the house 'cause as long as you're cheating
your conscience will sit up
and say
Betting on losers is always a good way to lose what you
wanted to prove

Say you love me
Say you love me

You should be talking better
But still you tried to better me
And now you'll be making the truth

(solo)

You should be talking better
But still you tried to better me
And now you'll be making the truth

Get out the house 'cause as long as you're cheating
your conscience will sit up
and say
Betting on losers is always a good way to lose what you
wanted to prove
