

Weezer "Osaka Aquabus"

Visit "[Osaka Aquabus](#)" on MotoLyrics.com

When liquid sky's dream they scheme
Carbon monoxide pies,
Causing layers of filth, to clog up my eyes
Layers and layers
And the Tokyo sun reaks of octopus

Take a ride on the Osaka Aquabus
Take a ride, escape the over-population crush
Times like these world would better fit if we just
float away from the dust

A wise man told me there, "You gotta breath in the Fuji
air"
Beautiful are trees, where are the euctalpyptus leaves?
And the Tokyo sun reaks of octopus

Take a ride on the Osaka Aquabus

Take a ride, escape the over-population crush
Times like these world would better fit if we just float
away from the dust

Confucius says beware,
Life of mud is better than definate palace
That really made me think,
To thank for every little drink
It put a tear in my eye,
To never see a lotus blooming in the day time
So take a ride
In times the world would benefit
If we take a trip on the Aquabus
