Queen of earth, won't you stand by my side?  
We've both waited for the whole of our lives  
Come with me, we can build extacy

Never once, have I felt quite this way  
Feel my heartbeat, it's just slipping away  
Want to live in my hole in the ground

I'm over and done, baby  
I'm over and done  
I never want to be alone  
I never want to be alone

Want to live in my hole in the ground

I'm over and done, baby  
I'm over and done  
I never want to be alone  
I never want to be alone
