She waits for a date
And yet she knows that he's not coming
He waits for the date
And yet he knows that he's not coming
I hope that it's not the break-up
And I hope that it's just the break
I hope that it's not the break-up
And I hope it's just the break
She waits for a date
And yet she knows that he's not coming
He waits for the date
And yet he knows that he's not coming
She waits for a date
And yet she knows that he's not coming
I hope that it's not the break-up
And I hope that it's just the break
I hope that it's not the break-up
And I hope it's just the break
And I hope that it's not the break-up
And I hope that it's just the break
