Late at night, you're hungry
You're craving some pizza
Let me be the one that you call

Olive or anchovy
Perhaps pepperoni
Anything you want, we've got it all

Near, far, I'll jump in my car
You just call in your order and I'm gone
You know, we hand toss our dough

Just tell me what you want and the toppings will go on
and on

Deep dish, whatever you wish
Even get two for one with a coupon
You must try our special crust
But just don't eat too fast or your heartburn will go on
and on
