Isn't it strange
Feels like I'm lookin' in the mirror
What would people say
If only they knew that I was

Part of some geneticist's plan (plan-plan-plan)
Born to be a carbon copy man (man-man-man)
There in a petri dish late one night
They took a donor's body cell and fertilized a human
egg and so I say

I think I'm a clone now
There's always two of me just a-hangin' around
I think I'm a clone now
'Cause every chromosome is a hand-me-down

Look at the way
We go out walking close together
I guess you could say
I'm really beside myself

I still remember how it began (gan-gan-gan)
They produced a carbon copy man (man-man-man)
Born in a science lab late one night
Without a mother or a father, just a test tube and a
womb with a view

I think I'm a clone now (a clone now)
There's always two of me just a-hangin' around
I think I'm a clone now (a clone now)
'Cause every chromosome is a hand-me-down
I think I'm a clone now (a clone now)
And I can stay at home while I'm out of town
I think I'm a clone now (a clone now)
'Cause every pair of genes is a hand-me-down

Signing autographs for my fans
Come and meet the carbon copy man
Livin' in stereo, it's all right
Well I can be my own best friend and I can send myself
for pizza so I say

I think I'm a clone now
Another one of me's always hangin' around
I think I'm a clone now
'Cause every chromosome is a hand-me-down

I think I'm a clone now (a clone now)
I've been on Oprah Winfrey - I'm world renowned
I think I'm a clone now (a clone now)
And every pair of genes is a hand-me-down

I think I'm a clone now (a clone now)
That's my genetic twin always hangin' around
I think I'm a clone now (a clone now)
'Cause every chromosome is a hand-me-down

I think I'm a clone now (a clone now)
