They only show you their gums when they smile  
Ain't got a tooth in their heads now, how vile  
Only can eat things like pudding and apple sauce  
They never have to buy toothpicks or dental floss

Hey, stand up  
Toothless people  
The breath is lethal  
Wanna tell ya

Hey, come on, stand up, get on your feet  
Toothless people  
Old and feeble  
What I say

No more of those pearly whites will they possess  
Their oral hygiene is frightful, a mess  
Lots of 'em suffering from trench mouth and gum  
disease  
At least they don't have to worry 'bout cavities

Hey, stand up, take out your teeth  
Toothless people  
Old and feeble  
Oh, yes

You can brush 'em, you can floss 'em  
They're something you just can't ignore  
If you lose 'em you're in trouble  
'Cause the tooth fairy won't come no more

You need something to show your dentist  
The next time he makes you say, ahh  
You don't wanna have to wind up  
Eating all of your food through a straw

Like toothless people  
Toothless people

You better brush your teeth now  
Toothless, toothless, toothless, toothless people
