this crazy man called saddam hussein
aint no doubt that the mans insane
he better get used to feeling bribed
in from the south put out his lights
yackety yack bomb iraq

you must have been an only son
growing up and playin with guns
that didnt affect him too well
look out the window check out your cell
yackety yack bomb iraq

a man possessed by his own greed
ignored his countrys desperate need
we aint gonna cut you any slack
look his palace now its a shack
yackety yack bomb iraq

keep armed forces rolling in
you own troops know u cannot win
dont get too comfy in your pad
whoops! there goes bagdad
yackety yack bomb iraq

i cant belive your still alive
give your people all a jive
the usa wont take no flaq
here comes another air attack
yackety yack bomb iraq
