Circling, to a room  
I am drawn to you  
It's what we have  
Walking, taking time  
The clock has stopped

Eyes that look to offer  
Change from fall to autumn  
It's here, it's what you do  
Here

You've been, here before  
We are, here again  
All the saints in heaven  
What becomes of the clock  
Tick tock tick tock tick tock tick tock tick tock

Eyes that look to offer  
Change from fall to autumn  
It's here, it's what you do  
It's here, it's what you do

Out of time, in your mind  
Out of sight, on the slide  
My main line, it's just fine.  
Now breath

Eyes that look to offer  
Change from fall to autumn  
It's here, it's what you do  
It's here, it's what you do  
It's here, it's what you do

Out of time, in your mind  
Out of sight, on the slide,  
My main line, it's just fine  
Over ride, broad daylight  
Deep inside, it's just fine
