Devil to your knees  
And take your hands off me  
I thought we were friends  
But you lie and lie again  
I hit the wall and the wall came down  
I climbed the wall now i wont come down  
To give up would be upside down  
Look up now  
Don't look down  
I've had hell to pay doing things my way  
Blessings are diguised but the devil i recognize  
I hit the wall and the wall came down  
I climbed the wall now i wont come down  
To give up would be upside down  
Look up now  
Don't look down  
.....now get out the same way you got in.
