Seems like all my life  
I've been waiting for the day to come  
When you'd turn to me and say just once  
I've been wrong  
But you threw your hat into the air  
And caution to the wind  
And whispered in my ear - ooh you said  
CHORUS:  
I'll pick you up  
And turn you round I'll leave you standing strong  
On solid ground  
To save you from these shifting sands  
To join the earth right here where I stand  
Cross my heart  
Coz you know I knew it all along  
I was waiting for the chance to show

I was strong  
And o I can feel it in the air  
That freedom's on the wind  
It's whispering in my ear freedom says  
(CHORUS)  
They can keep on telling you  
What's wrong and right  
And spell it out in black and white  
But don't you listen to a word they say  
It doesn't matter anyway  
They can keep on telling you  
What's wrong and right  
And spell it out in black and white  
But don't you listen to a word they say  
It doesn't matter anyway  
(CHORUS)
