[Werd:]

Back again Alude Reekie mate

[Wardie Burns:]

It's Wardie

[Werd:]

Werd and Wardie who, who

It's Werd and Wardie so sorry

Had to come and tell you that we daein' it aw day

Rock like a quarry thought that we taught you

So please stand back we are having a party [x2]

[Werd:]

It's S.O.S.

Cunt you ken who it is it's fucking Wardie and Werd

And you wish you where here like a holiday card

In this game of rap check what level we at

Without selling all the crack or fucking yelling out brap

I'm making lines like a game of Tetris

Christ so good even kings want to check it

And check my logos you won't get this

The copyrights pending like it hangs on a necklace

Yes and I don't change when I rap now

My idea was stay Scottish no back down

You say that it's whacked out fuck it get whacked out

Like junkies going clean al be putting the smack down

So don't act clown I'm sipping on Buckfast

And at the same time trying to make a few buck fast

Yeah and you just ain't got the bottle

So fuck your life and that's my new motto

It's Werd and Wardie so sorry

Had to come and tell you that we daein' it aw day

Rock like a quarry thought that we taught you

So please stand back we are having a party [x2]

[Wardie Burns:]

It's Wardie Burns

Cunt in Leith Edinburgh I was born and raised

Crashing hip hop gigs up at the Corn Exchange

We used to get drunk and fucking storm the stage

And wake up freezing in the cells with my morning rage
But now I'm back cunt back on the right track
And with Werd on song you know I rap on the right
track
No error it seems fuck American dreams
Because we are the new Scottish nightmare see the
terror and scream
Cunt it's Wardie and Werd and you've probably heard
S.O.S. makes a racket with a quality serve
Al drink a pint of hennessy until it whips my memory
See I'm the kind of cunt that hates his mate and likes
his enemies
Anyway I run and snatch like I'm Brick-Top
My hip hop shits so tight like a slip knot
I shit not kid start believing the facts
S.O.S. the Burghs finest and we will leave it at that

[Werd:]

Werd and Wardie so sorry
Had to come and tell you that we daein' it aw day
Rock like a quarry thought that we taught you
So please stand back we are having a party
Werd and Wardie we will stomp you
Fuck you cunts man give me a Johnny
Werd and Wardie we don't want you
So say something mate or come see us in Porty
