[Werd:]

All I know

Gets penned with the ink and I'm thinking

I should go

Somewhere else because I felt I was sinking

Down so low

Getting high off the hash and the drinking

Though I know

Lifes fast it will pass if your blinking [x2]

You know who what where like Cludo

Werd rep the Burgh till I get them Euros

Sterling Dollars that's right pural

All cause I write get it right I'm new though

So you go damn stop you flow

Damn stop water can't stop my moves though

Move yo your moving too slow

We the only movement move like you don't

Put effort in looks effortless

At the top you can freeze like Everrest

So I never rest and you'd never guess

How I flip words well well Werd splits text

But Werds got stress cause Werds just left

Sitting alone with the smoke in my breath

Smoking to death and hoping I'm next

I open a tin as I'm ropeing my neck

All I know

Gets penned with the ink and I'm thinking

I should go

Somewhere else because I felt I was sinking

Down so low

Getting high off the hash and the drinking

Though I know

Lifes fast it will pass if your blinking

[Deeko:]

Take your best emcees then stick them together

Then make it rain and we will put them pricks under the weather

You want to battle with the best wondering how we do it

Combining then form one creating the best music

I have said this from the begining you really should
know by now
If you don't read up on the profile
This is Werd and Deeko such a deadly combination
Ones smoked out the other could drink you under the
table
So forget about your deal mate it's over
Because you'll never get picked up even if you had a
chofer
My rhymes might go over your head like the wind blows
Trying to find my way to the top straight out of skid row
Right until the moment I strick and then I explode
Say that I'm Splifstarr you could put me on Flipmode
I pick foes who better stay on your tip toes
It just shows to cut check I slit throats
We go to shows the fans give us applause
It's why I'm still writing it's not for the rewards
I want to make it big decided to take charge
Of my life and I did it with sixteen bars
I won't quit still working a full time job
You need to get paid to set your career off
I do it round the clock fuck taking a day off
Plus before I could walk was abke to make songs
Plus before I could walk was abke to make songs

[Werd:]
All I know
Gets penned with the ink and I'm thinking
I should go
Somewhere else because I felt I was sinking
Down so low
Getting high off the hash and the drinking
Though I know
Lifes fast it will pass if your blinking [x2]
