Rap is dementing what's with the tension
Yes I'm class so I teach them a lesson
No money so guess that you ken then
I just do it in vain like Mark Renton
I'm not spending no I am skint
But I got an idea put it all in the ink
People don't want to hear what I think
I put you on ice like you do on a rink
Unsigned so they don't sell me
In a pure 'Rage' I wont do what you tell me
Your sick he's sick he telt you
I'm no sick no mate I'm healthy
See I rock like hard candy
And my jaw pops like I just copped Mandy

I can (can) kick like you can't
Still trying to sell in the shops that am banned from

You say that's a weak track I don't need that
I'm my own critic I rip it so fuck feedback
Is what you say going to change how I do this
No it aint so shut it and make music
I love rap a fact just ask cupid
Love at first mic so I write and I use it
I'm with Deeko my people the troops in
Never walk alone like at home when the hoops sing
So if you helped al be paying you back
And if you didn't little cunt you just sit at the back
See we bust raps bus that sit at the back
On the twenty six to Porty with the buckie on my lap
Give me chucky on the hash gone give me a tap
Al pay you back if your lucky because I'm fucked with
the cash
See I'm dirty pretty mucky and I started from scratch
So by the time am thirty buddy you be lucky with half
