Right listen fake cunts

You can rap in your normal voice

None of this fake shit it's no even hard to do

I want to sound American or something I could do that
shit

What you don't believe me

Fuck it lets list some rappers then and lets just give it a
shot

Start off with your fucking favorite cunt man

Play that shit

It's Werd mate SOS impressionist (laugh)

[Werd - Lil Wayne]

Young money like a mother fucker

Young money like a mother fucker

I'm a young millionaire young money cash money

Me never have money ha ha ha that's funny

See I am not a dummy I get bread not living crumby

And your an asshole cause your still living bummie

See I am living sunny in the sun now listen sonny

And I'm never going to stop like an Energizer bunny

Yes it's young money cash money

Want you want to know I get money money money

[Werd - Vinnie Paz]

Vinnie Paz daddy I put the blade to you first

Because I was born with a knife like caesarian birth

See you lay in the dirt get a grave in the church

I have your whole body spread like a plaque on the
Earth

Fagot you don't over stand my mathematics

I came from the depths of hell with black magic

Ready to start war and brawl and that's tragic

When we put the pump to your face like asthmatics

[Werd - Wu Tang]

Fuck your lifestyle blow your lights out

Knows that we dope like a nose and a white trail

And yeah we quite wild make a hype crowd

Throwing up their Wu's Wu Tang on the mic now

Disrespect Wu you a dead man
A take a draw with the sword in my left hand
It's Wu Tang it's the number one set man
Swift like the strike from the number one headband

Io whose hot flossing chain that be frosting
Mr. Tony Starks aka Mr. Mobbing
Aka like your X-mass robin
Scoping up honeys just to put them in their stockings

[Werd - Freeway]
This is what we do and how we does it
Young Philly and my beard the thickest flow you know it
Flow high definition better get with the movement
If you standing outside get inside with your tickets
Done shows for show online with the business
That's W W dot Freeway and slash
Werd hitting the raps and my disc gone bubble
All the way to the top till we getting the cash

[Computer voice]
Don't be fake
Drop the accent[Werd]
