[Werd]

Don't I sound like a robot

Werd SOS cunt don't it sound like a remix or something

You put it down like you so hot (so what)

I think you sound like a robot (robot)

You put it down like you so hot (so what)

I think you sound like a robot

Arigato Robota a keep it hotter than modals

Fuck your life is my motto I'm in the mix like Serato

No battle beef can't be fucked with the hassle

So fuck you're like auto tuner all that crap I just babble

Wait a sec mate did I just talk to myself

I'm the first cunt to do it so there's nobody else

On the auto tuner and I maneuver

I'm the shit man and your manure

Cunt I'm popping the bottles

And you just aint got the bottle

To fuck with Mr Roboto it's Mr Arigato

Like what the fuck am I saying but I'm Mr Roboto

Uh oh I'm like buttons ba ba bubble

Like what the fuck man I'm away on the beat

I'm going to need back up if you think that it's me

Like the sirens back up back up the violence

But what's the point aw it's just fly shit

You put it down like you so hot (so what)

I think you sound like a robot (robot)

You put it down like you so hot (so what)

I think you sound like a robot

And some of that was a freestyle

Yeah that was a freestyle

But you got it for free now

Now this it aint no freestyle

I'm running tracks like I'm jogging so don't think that

I'm stopping

I don't kick it I'm stomping yes I am sick like I'm
coughing

Until I lay in that coffin there is no way that I'm stopping

I'm dropping often hot and swing like it's crossing
And I'm a tick I keep talking putting work in I clock in
With no plaques am not flossing that's just plaque that
I'm flossing
You see my jaws popping like double dropping the E's
eh
You wanting trouble no problem I'm fucking easy

You put it down like you so hot (so what)
I think you sound like a robot (robot)
You put it down like you so hot (so what)
I think you sound like a robot

And this is just a fuck about
Don't take me seriously
See this is just a fuck about
And don't fuck with me seriously

I am Mr Robot it's just a remix
I am Mr Robot (so what) it's just a remix
