[Werd]

I make her go like... (know what I mean mate)

When I... (poke her face)

I make her go like...

When I... (listen it's Werd SOS)

I make her go like ow (ow) she really want to blow

But she does that that right on her own

She grown moan hit it like ow

Lassie is a dog and dog get the bone

(Ow ow) You know that I shagged her

Poked her face like that Lady Gaga

She likes that like Dolce & Gabbana

Prada rappers dressed in a manor

Rather hot get shot by the cameras

Not by the hammers she is the damage

Don't like me just a cunt with a swagger

Well so what I still whistle like clangors (woo)

But I want no marriage

I want you tonight and that matters

(No shit) So I'm on the flow

And I hope your not so a can make you go like

(What) When I...

I will make you go like...

When I... (Shit look, doll)

I'm a rapper can I rap you?

With no wrapper can I tap you?

Yo I'm sorry where are my manors?

Do you want a drink yip here is a magners

No wait no she don't drink ciders

Ok how about a lager?

Aw no you want a piñata colada

When that's too dear so dear you get nada

Oh dear oh dear getting daggers

From her boyfriend shit she a slapper

But she want the (uh) it don't matter

If he wanna come up to me he's getting paggerd

Get smashed hit with the glass

I take his bitch and I'm hitting her (ow)

You know you ken we go

So hen let me take you and make you go ow

When I...

Healthy doll she jack like a robbery  
Just like a holiday beach is pure quality  
Monogamy nah get it tight like your mocking me  
Hen get the cock in you  
Ken that's my thought the day  
Hey, you can walk with me don't talk to me  
That will put you off if you hear what I got to say  
Cause I'm not like the me in your mind state  
Don't want your name cause your not getting mine  
babe  
Oh wait you know who I am  
Damn that's gonna fuck up my plan  
How can I ditch you at dawn?  
When the morn you'll see me on stage when I'm on  
I want you kept I write you a song  
Girls that I love but to me it's wrong  
I do it with ease like the E's I'm on  
Your easy to please I just write a song like

Dedicated to the females  
Let me poke your face  
I will make you go like... (what)  
When I...
