[Werd:]

I am

So fly like a Rocketship

Out this world when I'm rocking this

So fly like a Rocketship

Out this world when I'm rocking this

[Kathy McCarty:]

I'm going on a trip far away

[Werd:]

Yo bring that back bring that back

Going on a trip here mate and so are you

With the Scottish rapper

Alude Reekie Edinburgh ken who it is mate it's Werd

S.O.S.

Got my bags packed it's a fact I go

But I come right back like a rap yoyo

Don't rap yo yo no Koko no

Don't sound like a clown that sounds so so

I'm Han Solo and I'm solo

I get so high and your still so low

And rock a show with an ounce of snow

Put it in my nose I know you know

It's a big no no to flow no mojo

I stay flash like an instant photo

So bright like lights on popo

Do what I like till they light my logo

From Edinburgh oh no to London Soha

So I can say so hoe blow for more doe

I fuck Uranus and do Saturn's ring

I'm out this world when I do my thing

I am

So fly like a Rocketship

Out of this world when I'm rocking this

Rock this shit

Ship shit that's how fly

I should go stay in the Isle of Skye

How I'll I'm I shit skill don't lie

And check my standards I mountain high
Plus I produce these kids like mothers
Take it right to these cunts no rubbers
And I write rhymes like old Mother Hubbard
There's no fucking other need doe mother fucker
Done shows in the summer now we back in the winter
Getting under skin like splinters but I'm no mutant ninja
I am no little winger I will win I'm a winner
Yeah I'm hot your a minger aw man I deliver
Like takeaway dinners take away you beginners
Only see competition when I'm looking in the mirror

[Kathy McCarty:]
There is a boy there
His name is 'X'
He says you don't know me
I don't know you either

[Werd:]
Who fuck is you you wee bend
Err in fact I don't want to ken
I got no buddies calling me friend
I'm a hang up but they call me again
And it's quarter to ten and I'm rocking the pen
So it's often a tend to blocking my end
Because I've no got time to be talking to them
When I don't drop shit I be dropping a gem
At fifteen and shit seems by sixteen
My sixteens where just mean a sick teen
With shit dreams to get green a has been
That's has been seen before he seen scenes
Before I seen scenes cunt
Let's count just count till you see me
The days so fly call me run away I'm take off
Sing it lassie

[Kathy McCarty:]
The stars are blurring
We are going fast
We are going on a trip far away
We are leaving today
Our planet is our Rocketship
