Should have talked it over
Should have thought it through
I think I might have bit off
A little more than I could chew

Well, I have got to get out
From underneath this weight
Or it's gonna kill me

But the shining of the silver
The glimmer of the gold
Kept giving me a fever
But left me feeling cold

I'm right back in the middle
And if I don't come out soon
Come in and get me

'Cause I keep slaying all these dragons
But more keep coming
And I keep praying for this fight to end

Uh, oh, here I go
Wading through a lot of stuff you know
Juggling it all while I'm balancing on a wire

Slow down, I have found
Seems that every time I turn around
Got one foot in the muck
And another foot in the mire

Well, I'm scaling down
Pulling back, got to try
To simplify

I put my golden ring on
Unseen I went down where
War and peace collided
Inside the dragon's lair

When pleasure is your master
Convenience is your key

Your heart's divided

Well, I keep weighing
All these options
More keep a coming
And I keep straying
From the way I'm told

Uh, oh, here I go
Wading through a lot of stuff you know
Juggling it all while I'm balancing on a wire

Slow down, I have found
Seems that every time I turn around
Got one foot in the muck
And another foot in the mire

Well, I'm scaling down
Pulling back, got to try
To simplify

Uh, oh, here I go
Wading through a lot of stuff you know
Juggling it all while I'm balancing on a wire

Slow down, I have found
Seems that every time I turn around
Got one foot in the muck
And another foot in the mire

Well, I'm scaling down
Pulling back, got to turn around
On the track, yeah, I'm scaling down
Pulling back, got to try
To simplify

Uh, oh, here I go
Wading through a lot of stuff you know
Juggling it all, yeah

Slow down, I have found
Seems that every time I turn around, yeah
Simplify, simplify
