I didn't sleep all night
I didn't sleep all night
I didn't sleep all night
I didn't sleep all night

Made a phone call last night
I've been thinking about it all day
I made you cry last night
But it's okay 'cause I heard you say I love you

I floated in those words
I floated in those words

I don't even know why I feel what I feel
I don't even know why I think what I think
I don't even know why I do what I do
I don't even know why I say what I say

You're making me, you're making me nervous
It will all fall apart
But it's okay, it's okay
It won't fall apart
