I love the way I feel
I love the way I feel
I love the way I feel
I love the way I feel

I love the way I feel
I love the way I feel
I love the way I feel
I love

You're bursting up inside me
Pushing through my skin
Explosions parade across my chest
Like soldiers when I hear your voice

What are you doing to me?
I want you to fill me
I wanna fill you
Tasting touch of your skin

I love the way I feel
I love the way I feel

Your man should know there's a shadow
Growing tall behind you
As his sun goes down
I love the way I feel

I hear you coming with every breath
It sounds so right, that's why I'm pressing you

I love the way I
I love the way I feel
I love the way I feel
I love the way I feel
I love
