The night is so young and I've got miles behind me on
this road,
The world is so dark,
But I'll use the stars to guide me home.
We used to stare up at the sky,
I named them all for you.
And I know now why you cry,
But it's something I could never do.

There was a time when I never even knew your name,
But we've come full circle now and I can't say I feel the
same.
Well it's over now, no it's not my time.
My watch stopped at 12, no it's not my time.

Things were impossible when you left,
Harder now to know you're never coming back.
We never knew the word back then, we had it all.

There was a time when I never even knew your name,
But we've come full circle now and I can't say I feel the
same.
Well it's over now, no it's not my time.
My watch stopped at 12, no it's not my time.

They say I ride to war but not to victory,
But I will avenge you,
Until my heart gives out.

There was a time when I never even knew your name,
But we've come full circle now and I can't say I feel the
same.
Well it's over now, no it's not my time.
My watch stopped at 12, no it's not my time.
