These white lines are what keep me safe
Not the white lines absolved to satiate
Save your dowry for the rock stars (rockstars)
Pleasure quarters rapturous daughters with alluring
duress

These car wrecks are what protect me
Cross hairs for cross walks cross leisurely
Anxious Brahmas in a china shop (china shop)
Take the train from Pamplona so these neurons will
stop

Deceptive perceptions insure my protection
Inconsistent systems reinterpret correct them

This belt of cloth is what protects me
Lover's arms, hostile wives with pious threats
Siphon stipends from your vital signs
This carbon dating is worth hating but it won't break the
skin

This pane of glass is what protects me
Soft skin, gently pinned in a prison romance
Careless knives slumber patiently (patiently)
Dedicated to serrating discerning delicacies

Deceptive perceptions insure my protection
Inconsistent systems reinterpret correct them
Calm down

It seems nothing will protect me
Hallowed wraths, conjured scenes endless fake believe
Pigs and sharks bide hungrily (hungrily)
Their furled jaws are dormant saws awaiting chances
mercy

Deceptive perceptions insure my protection
Inconsistent systems reinterpret correct them
Calm down
