Attack!

Little Orange Eyes - Coming from my room

Cutting Up My Hands - Gotta clean up my wounds

Bathroom poltergeist - Running up his spine

Sweaty Nausea - Palm full of red wine

Striations . . . up my arm

This curtain's a man of war - As liquid drips in me

Smoking lady's wake - Gotta get to LA

Hands above my head - Making out the will

Forty-four and three-fourths - Holding down the back
seat

Blood-poisoned cast - When a good friend attacks

...When a good friend attacks

Here comes Elvis!

Orange eyes, coming for you - Unbridled rage at 1 foot
2

Orange eyes, coming for me - Ready to wreck my
whole family

I know he's your brother and I love him too - but I'm so
scared So what can we do

A gentle 12 lbs when he's in your lap But pick him up
and he'll fucking, snap!

When a good friend attacks (whoa-oh-oh)
