

Western Waste "In The Clouds"

Visit "[In The Clouds](#)" on MotoLyrics.com

Did you feel more comfortable watching watching other
people fall did you feel more comfortable watching
watching you knew the secrets of our pastimes would
you join them you said it would be best to tell the world
you wouldn't rest you said we were the worst and you
were just a perfect angel look at you now and see your
head in the clouds did you see them watching over you
do you feel low not sorry that you didn't know and i'm
not sorry your head is in the clouds your head is in the
clouds you knew it but you said you're better than the
rest you knew it you said you're better than the rest do
you see them watching over you do you feel low your
head is in the clouds your head is in the clouds i'm not
sorry that it sucked you in i'm not sorry that it sucked
you in did you feel more comfortable watching
watching other people fall do you feel more
comfortable watching watching do you see them
watching over you do you feel low did you see them
watching over you did you feel low i'm not sorry it
sucked you in i'm not sorry where do i begin i'm not
sorry it sucked you in i'm not sorry where do i where do
i begin
