

Western Waste "Lost"

Visit "[Lost](#)" on MotoLyrics.com

I know that that i've been oh so lost don't worry i'm here
to stay stay stay i know that that i've been oh so lost
don't worry i'm here to stay search for incorrection
makes it harder put up a fight why even bother and
search for incorrection makes it harder put up a fight
why even bother i'll stay stay stay i will be there for you
no matter what you do you will be there for me even if
we disagree i'd like to make and state a fact even if i
know it makes you mad i will i'll be there there for you
there for you search for incorrection makes it harder
put up a fight why even bother go i'll be there to open
open up my door don't worry we'll use the floor we can
be around make a while seem so fast don't worry i'm
here to stay i will be there for you no matter what you
do you will be there for me even if we disagree i'd like
to make and state a fact even if i know it makes you
mad i will i'll be there there for you there for you
