### **"Set Me Up Again"**

Visit "[Set Me Up Again](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Save the mystery what did i come to see i wanna know i  
gotta know someone tell me please come down here  
and rest with me tell you now it's not that easy i wanna  
tell you my i wanna tell you my story set me up again  
tell me to rebuild myself leave me in control set me up  
again leave me in control no how long will it take 'til i  
break i wanna know i wait i wanna know i wait set me up  
again tell me to rebuild myself leave me in control set  
me up again leave me in control give me some relief  
take the mystery away for now what did i come to see i  
wanna know and i feel it's back but now i can't keep  
falling set me up again tell me to rebuild myself leave  
me in control and give me some relief set me up again  
leave me in control set me up again leave me in control  
no control control control control give me some relief
