Westlife
"Don't Get Me Wrong"

Don't get me wrong

I've played my part and it's over
I'm tired of being strong
By hiding that I'm not

(Yeah)

Don't get me wrong
You've played your part
And I think you know
This love's for real
It's time to show just how I feel

Time after time
I refuse to see why
I can't go on without you by my side

Chorus
Baby I just wanted you to know
That if you care you could be
Part of my life
Baby don't you know we could
Be doing this forever and be doing alright

(Yeah)

Time after time
This moment's been on my mind
Now I've left it behind

(Oh)

Don't get me wrong

(Yeah)

Don't get me wrong
You bruised my heart and it's aching
It won't take you long
To see that I'm in pain

Don't get me wrong
If you run off now you sure
Be mistaking
This love's for real
And baby this is how I feel it
Yeah

Time after time I've been
Trying to deny
I can't go on without you
By my side

(Don't get me wrong)

chorus
Baby I just wanted you to know
That if you care you could be
Part of my life
Baby don't you know that we could
Be doing this forever and be doing alright

Time after time
This moment's been on my mind
Now I've left it behind
Just don't get me wrong

Don't get me wrong
No no baby

(Ooh yeah)

Time after time
I've been trying to deny
I need the nearness of you
To get by

Chorus 2x
Baby I just wanted you to know
That if you care you could be
Part of my life
Baby don't you know that we could
Be doing this forever and be doing alright

Time after time
This moment's been on my mind
Now I've left it behind (second time 2x)
Don't get me wrong
