I can't sleep, everything I ever knew
Is a lie without you,
I can't breathe, when my heart,
Is broke in two,
There's no beat without you

You're not gone but you're not here
At least that's the way it seems tonight
If we could try to end these wars
I know that we can make it right
'cause baby

I don't wanna fight no more,
I forgot what we were fighting for,
And this loneliness that's in my heart
Won't let me be apart from you
I don't wanna have to try
Girl to live without you in my life,
So I'm hopin we can start tonight
'cause I don't wanna fight no more

How can I leave, when everything
That I adore
And everything I'm living for
Girl it's in you
I can't dream, sleepless nights

Have got me bad
The only dream I ever had is
Being with you

I know that we can make it right,
It's gonna take a little time,
Let's not leave ourselves with no way out
Let's not cross that line

Remember that I mad a vow
That I would never let you go
I meant it then , I mean it now
And I wanna tell you so

'cause I don't wanna fight no more

I forgot what what we were fighting for
And this loneliness that's in my heart
Won't let me be apart from you
I don't wanna try
Girl to live without you in my life
So I'm hoping we can start tonight
'cause I don't wanna fight no more
