I can't sleep, everything I ever knew  
Is a lie without you  
I can't breathe when my heart has broke in two  
There's no beat without you

You're not gone but you're not here  
At least that's the way it seems tonight  
If we could try to end these wars  
I know that we can make it right  
Cos babyâ€¦.

CHORUS:

I don't wanna fight no more  
I forgot what we were fighting for  
And this loneliness that's in my heart  
Won't let me be apart from you  
I don't wanna have to try  
Girl to live without you in my life  
So I'm hoping we can start tonight  
Cos I don't wanna fight no more

How can I leave, when everything that I adore  
And everything I'm living for  
Girl it's in you  
I can't dream, sleepless nights have got me bad  
The only dream I ever had is being with you

I know that we can make it right  
It's gonna take a little time  
Let's not leave ourselves with no way out  
Let's not cross that line

CHORUS

Remember that I made a vow that I would never let you  
go  
I meant it then, I meant it now  
And I wanna tell you so

CHORUS x 2
