Baby,baby,
I swear to you,
Baby,baby,
I'm here for you,

I don't know why,
why i did those things to you,
what went through my mind,
And i don't know why,
why i broke your heart in two,
guess that i was blind,

Baby how i wish you could forgive me,
just one more time,baby...

And i swear,
I'll be there,
anytime you want me to,
I'll be true,
here for you,
Don't leave me lonely,
cause i need you,

Guess i've been a fool,
Now i can see the price to pay,
I can't run and hide,
Cause i'm loosing you,
and my chances slipped away,
with each time i lied,

Baby how i wish you could forgive me,
One more time,
oh yeah

And i swear,(and i swear)
I'll be there,(i'll be there)
anytime you want me to,
yeah,
I'll be true(i'll be true)

here for you,
Don't leave me lonely,

cause i need you,

Baby,
Living without you,
will tear me apart,
When i know how it could have been,
But i don't care what it leads to,
let's make a new start,
and give love a chance to win,
cause,baby i swear,

Baby,baby,
I swear to you,
anytime you want me to,
Yes i swear,
Baby, baby,
I'm here for you,
don't leave me lonely,
Cause i need you, (i need you)

And i swear,
I'll be there,
anytime you want me to,
yeah,
I'll be true,
here for you,
Don't leave me lonely,
Cause i need you, (cause i need you)

And i swear,(you know i'll be)
I'll be there,(i will be there)
(i swear) I'll be true,(i will be true)
Don't leave me lonely,
Cause i need you,
Yes baby i need you.....
