[Mark:]

Baby, tell me, are we heading into trouble, yeah
Is it my imagination taking whole
Do I read too much into the way we slay
The way you move away from me
I may feel that you're the one
But when all is said and done

[All:]

Love takes two
Time after time we've talked it through
Cos baby, I need you
What am I supposed to do

[Mark:]

Love takes two

[Shane:]

There's a whole lot of things you can do and do without
me, yeah
There's a million things I can do and do alone
But the best you can do for yourself
Is sharing with that someone else
No one wants to be alone
It's the one thing that I know

[All:]

Love takes two
Time after time we've talked it through
Cos baby, I need you
What am I supposed to do

[Mark:]

When your words could disguise what you're going
through

But they can't fool your heart
Now it's time to decide what you wanna do
I'm telling you

[All:]

Love takes two

[Mark:]

Love takes two

[All:]

Time after time it's proven true

Cos baby, I need you

What am I supposed to do

[Mark:]

Love takes two

[All:]

Love takes two

[Mark:]

Love takes two

How can you

What am I gonna do about you, hey baby

[All:]

And I need you

[Mark:]

When you know that, I want it so bad

It's enough, girl to drive you crazy cos

[All:]

Love takes two

[Mark:]

Love takes two

How can you

What am I gonna do about you, baby

[All:]

And I need you

[Mark:]

When I know that, I want it so bad

It's enough, girl to drive you crazy cos

[Mark:]

Love takes two
