Yeah, check it out

Pretty girls are all around  
I'm looking up and down  
Till my view finder  
Finds you in the sand

Zooming till you feel the flame  
You've been driving me insane  
And the way you're acting's telling me you feel the  
same

Everything you do  
Everything I see  
The sunlight on your body is working for me  
Take after take  
Watching every move you make  
There's only one thing that's missing...

Chorus:  
Picture me all over you  
Picture you all over me  
Baby, you're the star of my private movie  
we're stealing the lovenscene  
Right out of my dream  
We see the sun come up  
The violins are playing  
Girl, we're making love  
In my private movie

My private movie  
Check it out  
Cut to a desert isle  
Surrounded by the deep blue sea  
Fit to a picture of your lips kissing me  
Waves are crashing as our love runs free  
Let the rhythm take us from here to eternity  
Oh, baby, can we make this real  
Autograph my heart  
Cos I know how you feel

Cause you know it's true girl  
You're my fantasy  
There's only one thing missing...  
Since I saw your face  
I've never been the same  
Now it's only you I think of  
Slow motion frame by frame

Picture me all over you  
and all over me  
(baby you're the star...)

Picture me all over you  
Picture you all over me  
Straight out of my private movie  
You're stealing the lovescene right out of my dream  
My private movie  
Check it out  
My private movie

Cut to a desert isle, oh yeah  
Surrounded by the deep blue sea

My private movie
