Nah nah na nah nah

All around the world
All around the world
Someone needs somebody
Let it be shield
All around the world
All around the world
Someone's feelin' lonely
But I know you never will
'Cause when it all gets too much

Put your head down on my shoulder
A little warmth when it gets colder
Now I don't know the things
That you're goin' through
But you can put your head down on my shoulder
Where the storm to till it blows over
I know you're there for me too
Now I'll be there for you

You're waitin' for a change
You're waitin' for the day
When all that you remember
Is with you once again
There's a long road ahead
Stretches out for miles
An' if you want some company
I'll walk with you a while
Oh and when the road
Gets too rough

You can put your head down on my shoulder
A little warmth when it gets colder
I don't know the things
That you're going through
But you can put your head down on my shoulder
Where the storm till it blows over
I know you're there for me too
So, I'll be there for you
For you, for you, ooo, ohh

When it all gets too much

Put your head on my shoulder

(On my shoulder)

Put your head on my shoulder

(On my shoulder)

Put your head on my shoulder, now

Oh, but you can put your head on my shoulder

A little warmth when it gets colder

(Put your head on my shoulder)

Put your head on my shoulder, now

(I don't know the things that you're going through)

Baby, put your head on my shoulder

(Where the storm till it blows over)

Put your head on my shoulder

Put your head on my shoulder

(I know your there for me)

So, I'll be there for you

Nah nah na nah nah

Nah nah na nah nah

Nah nah na nah nah

Nah nah na nah nah
