Kian:

Yeah, check it out

Shane:

Pretty girls are all around

I'm looking up and down

Till my view finder

Finds you in the sand (Mark: Oh yeah)

Zooming till you feel the flame

You've been driving me insane (Mark: Driving me insane)

And the way you're acting's telling me you feel the same

Bridge:

Everything you do

Everything I see

The sunlight on your body is working for me (Mark: Is working for me whoaa))

Take after take

Watching every move you make (whoa)

There's only one thing that's missing...

Chorus:

Picture me all over you

Picture you all over me

Baby, you're the star of my private movie

we're stealing the lovenscene

Right out of my dream

We see the sun come up

The violins are playing

Girl, we're making love

In my private movie

Kian:

My private movie

Check it out

Shane:

Cut to a desert isle

Surrounded by the deep blue sea (deep blue sea)
Fit to a picture of your lips kissing me (your lips kissing
me)
Waves are crashing as our love runs free
Let the rhythm take us from here to eternity

Bridge:

Oh, baby, can we make this real (Bryan: Make it real)
Autograph my heart
Cos I know how you feel
Cause you know it's true girl
You're my fantasy (Mark: ohh)
There's only one thing missing...

Repeat chorus

Shane:

Since I saw your face
I've never been the same
Now it's only you I think of
Slow motion frame by frame
(Kian: Everything I see)

Picture me all over you (all over you)
and all over me (all over me)
(baby you're the star

Picture me all over you (all over you)
Picture you all over me (all over me)
Straight out of my private movie (my private movie)
You're stealing the lovenscene right out of my dream

Repeat chorus.

Kian:

My private movie
Check it out

Shane:

My private movie

Kian:

Cut to a desert isle, oh yeah
Surrounded by the deep blue sea

Shane:

My private movie

on & on till the end
