In your eyes, I found the greatest prize  
You and I could not be closer

And in your arms is everything I want  
Now, I know my search is over  
And I don't know where you take me  
But it's exactly where I wanna be

It's where the stars line up  
It's where the oceans touch  
It's in a place you've never been  
That feels like home

It's in the air right now  
It's when you give your all and give a little more  
I've never been so sure  
That's where you find love

People pass and listen to us laugh  
Wishing that they had the same thing  
And our friends they ask, how we made it last  
I just smile and say the same thing

I'm not sure how we got here  
Baby, I'm just glad that we got here

It's where the stars line up  
It's where the oceans touch  
It's in a place you've never been  
That feels like home

It's in the air right now  
It's where you give your all  
And give a little more, I've never been so sure  
That's where you find love  
That's where you find love

It's where the stars line up  
It's where the oceans touch  
It's in a place you've never been  
That feels like home

It's in the air right now  
It's where you give your all  
And give a little more, I've never been this sure  
That's where you find love  
Find love, that's where you find love
