All that I want in my life
Is the feeling of peace deep within me truly
I took the chance, I let go
I promised myself that it wouldn't scare me

Miracles appear, I know
Now I can see it show
'Cause I

Found out what I dreamt of
And I looked it up
At this very moment
What I want is what I've got

Found out what was missing
And I looked it up
And at this very moment
What I want is what I've got

Life is too short to hold back
I won't live in the past, being lonely now I know
This is the time of my life
Yes, I'm sure what I want is what I've got

Miracles appear I know
Now that I can see it shows
'Cause I

Found out what I dreamt of
And I looked it up
At this very moment
What I want is what I've got

Found out what was missing
And I looked it up
And at this very moment
What I want is what I've got

Now I've found out what I've been dreaming of
It's the feeling of peace deep within me
'Cause life is too short to hold back
I made up my mind, I just

Found out what I dreamt of
And I looked it up
At this very moment
What I want is what I've got

Found out what was missing
And I looked it up
And at this very moment
What I want is what I've got

What I want now
Is what I got, yeah
What I want now
What I want is what I've got

What I want now
Is what I got, yeah
What I want now
What I want is what I've got

Found out what I dreamt of
And I looked it up
At this very moment
What I want is what I've got

Found out what was missing
And I looked it up
And at this very moment
What I want is what I've got
