I see you now in the dead of night The shadows closing
in
You lie and wait for the morning light You'll just survive
till
Then
Loneliness only means you harm So try to raise a smile
Don't
You know that your open arms Can bridge a thousand
miles?
When there's no end to it all Try to surrender Let
yourself
Fall and just Try to remember
You're Not The Only One who feels pain Open your
heart
And live again The rule you depend upon From this day
on
You're Not The Only One
Throw back the shutters and unlock the spell Let
sunshine
Light your face The growing fears that you know so well
Will
Vanish into space
You're Not The Only One who needs faith Climbing the
face
Of the unknown To tell you you're not alone And, above
all
Else You're Not The Only One
Free Yourself Take a good look around There's a lot of
love
To be found Love will not let you down
