It's only you, beautiful,  
Whom which I can't comprehend.  
Your eyes tell tales,  
Stories of love, passion, and sin,  
And I believe.  
If only you could, too.  
Then maybe I'd stop having these dreams.

She seeks nothing less,  
Than excellence and pure perfection.  
And with these markings on my neck,  
I still believe, I still believe.  
When will I stop having these dreams?  
These nightmares.

The first attempt to see the light and use her,  
Our first attempt to face the demons  
From our past, present, and future.  
We'll sleep with the lights on.  
It's give or take a few more minutes,  
Of this baby,  
And we're completely awake.

So girl, let's dance your violent dance,  
You grab my neck, and I'll grab your...  
Hand in hand, we're at the sky's demand tonight.  
You've got a way with this,  
You've got a way with this.  
You're someone not so easily impressed.  
You're always searching for the next best.

You left the marks, so we would change,  
But we'll never change our ways.

From on top of the world,  
Here's to come,  
More bad news about what I've done.  
And it's needless to say these selfish things,  
Because the night's the only thing for me.

Oh, my hands are wrapped around your throat,  
And I'm dying to let you know.

My hands are wrapped around your throat,  
And I'm dying to let you know.

Moonlit skies, and lover's lies.  
We'll lie entwined, and I'll take mine.  
Those bloodsoaked lips I tried to kiss,  
Now haunt me in my dreams.  
Moonlit skies, and lover's lies.  
We'll lie entwined, and I'll take mine.  
Those blood soaked lips I tried to kiss,  
Now haunt me in my dreams.

It only hurts when I think.  
(It only hurts when I think.)  
It only hurts when I breathe.  
It only hurts when I try.

I try!  
(Moonlit skies and lover's lies.)  
I think about this and watch you tremble.  
(Moonlit skies and lover's lies.)  
I think about this as I try.  
(I try.)

I try.  
Ready or not, you're gonna hear this,  
Whether the screams come from the fucking floor.  
You'll feel my wrath.  
You'll feel the centuries turn to dust.

Bless my beating heart.  
Still breathing, without you.
