I'm just enjoying my time
I'll just leave it all for later for now
and I know I'm gonna feel you somehow
it's that mess around disturbing my mind
and there's nothing here for me

and the rain is trying to get me alive
and instead of drying, I dive

I'm just enjoying my time
let the glass fill up with something unclear
I see there many shapes of me
I'm just enjoying it to be
and the calling of the morning
makes me wanna pee
I see there many shapes of me

and the rain is trying to get me alive
and instead of drying I dive

I'm just enjoying my time
