

Whatever "Fear Inside"

you don't need to give me a sign
I got nothing to beat me
I fear inside
wondering
unknown spin
I got nothing to beat me, no
I fear inside

strike fast, nothing that won't cast
I got nothing to beat me
I fear inside
giving in, no harm's been seen
I got nothing to beat me
I fear inside

goodbye
it's my goodbye

alone again, digging the pain
I got nothing to beat me
I fear inside
mouth is dry, singing goodbye
I got nothing to beat me, no
I fear inside
