How you and I (you and I)
We know we love each other (each other)
It's a shame we have to hide
Every time we're this way
We're friends (friends by day, lovers by night)
Friends by day lovers by night
We're friends (friends by day,)
But lovers by night
Whooooeee Whooooeee girl (whoeee girl)
Come back to make it stop
But then a feelin' overcame me
And I want you in my arms
Like I wanna do for some time
We just got to be
Friends by day, lovers by night (lovers by night)
Yes I do (friends by day, lovers by night)
Friends by day, lovers by night
Whoooo who
Aaw We're friends, all together
You with him and she with me
Soon will arise as we're carin'

'Cause we can't go on this way

There'll never be anyone else for me

I don't want us to be

Friends by day, but lovers by night (but lovers by night)

Friends by day

Friends by day, lovers by night (lovers by night)

Friends by day

Friends by day, lovers by night (lovers by night)...
